

# Mechanical Accessory Parts

Accessory supply parts including tapes, vapor barriers, eggcrates any dryerbox.

Leading brands such as Avery Dennison, Berry Global, Nashua, Drader and Dryerbox

### Avery Dennison Foil Tape

Avery Dennison Fasson 0817 tape is a hand tearable aluminum foil tape featuring an extreme weather rubber adhesive that offers excellent cold temperature performance, a strong bond to a variety of surfaces and forms a barrier to moisture and vapor.

### Polyken Duct Tape

203 Series Polyken Contractor Grade Duct Tape is a polyethylene coated cloth duct tape comprised of a high quality, high shear natural rubber adhesive and moderately strong backing.

| Part No. | Description                                    |
|----------|--|
| 817-2    | Avery Dennison Fasson all weather foil sealant |

| Part No. | Description                            |
|----------|--|
| 203-S1   | Polyken 203 Series - Silver - 1"x60y   |
| 203-S2   | Polyken 203 Series - Silver - 48mmx55m |
| 203-Y2   | Polyken 203 Series - Yellow - 48mmx55m |

### Nashua FSK Foil-Scrim-Kraft

Nashua diamond pattern foil-skrim-kraft insulation seaming tape. Tear resistant. Tri-directional reinforcing scrim. Adhesive is protected by a bleached Kraft release liner. Matches tri-directional FSK facings. High strength reinforced facestock.

### Nashua 322 HVAC Multi-Purpose Foil Tape

Seam, seal, and patch HVAC duct systems, dryer vents, insulation materials, and more with Nashua 322 HVAC Multi-Purpose Foil Tape. Made of durable aluminum foil, this high-tack tape adheres to surfaces to form an immediate seal and easily

| Part No. | Description                  |
|----------|------------------------------|
| FSK-2    | Nashua FSK Series - 48mmx46m |
| FSK-3    | Nashua FSK Series - 72mmx46m |

| Part No. | Description                          |
|----------|--------------------------------------|
| 322-2    | Nashua 322 Series - Foil - 48mmx46m  |
| 322-3    | Nashua 322 Series - Foil - 72mmx46mm |

### Polyken Insulating tape

Polyken insulating tape comes in a 3/4 in width, 66 ft length, uses a rubber adhesive and is packaged 75 rolls per case.

Can be used in the following temperature range: +40 F to +180 F. Provides a tensile strength of 20 lb/in. Many tape products can have either conductive or insulating properties which are used across a variety of applications. This insulating tape is electrically insulating. This product is a single-sided adhesive insulating tape.

7mm thickness

| Part No.          | Description                    |
|-------------------|--------------------------------|
| B17-Black (776B)  | B17 Series - Black - 3/4"x66'  |
| B17-Blue (776BL)  | B17 Series - Blue - 3/4"x66'   |
| B17-Green (776G)  | B17 Series - Green - 3/4"x66'  |
| B17-Orange (776O) | B17 Series - Orange - 3/4"x66' |
| B17-Red (776R)    | B17 Series - Red - 3/4"x66'    |
| B17-Yellow (776Y) | B17 Series - Yellow - 3/4"x66' |
| B17-White (776W)  | B17 Series - White - 3/4"x66'  |

### Dryerbox

Dryerbox provides many benefits to the builder, contractor and homeowner.

The Dryerbox prevents inefficient venting of dryer appliance due to kinks or bends in flex transition hose. Allows the appliance to be located closer to the wall

Dryerbox has models allowing for upward or downward venting with versions supporting new-construction (studs with no drywall yet) and Retro-Fit versions (drywall on the studs).

| Part No. | Description   |
|----------|---|
| DB-350   | Dryerbox model 350 upbox 3 1/2" deep  |
| DB-3D    | Dryerbox model 3D downbox 3 1/2" deep   |
| DB-425   | Dryerbox model 425 upbox 4 1/4" deep  |
| DB-480   | Dryerbox model 480 up and down box 4 1/4" deep for pedestal or stand-alone dryers |
| DB-4D    | Dryerbox model 4D downbox 4 1/4" deep   |

### Eggcrate Grilles

1/2" cube aluminum eggcrate louvers are accepted as the worldwide standard. Features half-lap perimeter detailing to facilitate an unbroken appearance when parts are butt joined. 1" thick eggcrate with 1/2" square cells

1/2" cube plastic eggcrate louvers are accepted as the worldwide standard. Features half-lap perimeter detailing to facilitate an unbroken appearance when parts are butt joined. 3/8" thick eggcrate with 1/2" square cells White Acrylic or Styrene

| Part No.     | Description   |
|--------------|---|
| AL500-24-BWE | Aluminum Egg Crate - 23.75x47.75 baked white enamel |
| AL500-24-MF  | Aluminium Egg Crate - 23.75x47.75 Mill Finish       |

| Part No.       | Description                                   |
|----------------|---|
| ECS-24-3-White | Plastic Thincell Egg Crate - 3/8" 2x4 - White |

### Exhaust Fan Vapor Barrier

Drader has a cost-effective solution to achieve moisture control and damp proofing around wall and ceiling mounted electrical boxes, light fixtures and exhaust fans. Drader vapour barrier can be ordered in varying quantities and is made of our most reliable materials. Customers also use vapour barrier as an insect barrier.

| Part No. | Description                            |
|----------|--|
| PBRC1    | Small/medium exhaust fan vapor barrier |
| PBRC3    | Large exhaust fan vapor barrier        |
