

# Mechanical Accessory Parts

Accessory supply parts including tapes, vapor barriers, eggcrates any dryerbox.

Leading brands such as Avery Dennison, Berry Global, Nashua, GMI Manufacturing, American Louver, SLP Lighting and Dryerbox

### Avery Dennison Foil Tape

Avery Dennison Fassung 0817 tape is a hand tearable aluminum foil tape featuring an extreme weather rubber adhesive that offers excellent cold temperature performance, a strong bond to a variety of surfaces and forms a barrier to moisture and vapor.

Part No.	Description
817-2	Avery Dennison Fassung all weather foil sealant

### Polyken Duct Tape

203 Series Polyken Contractor Grade Duct Tape is a polyethylene coated cloth duct tape comprised of a high quality, high shear natural rubber adhesive and moderately strong backing.

Part No.	Description
203-S1	Polyken 203 Series - Silver - 1"x60y
203-S2	Polyken 203 Series - Silver - 48mmx55m
203-Y2	Polyken 203 Series - Yellow - 48mmx55m

### Nashua FSK Foil-Scrim-Kraft

Nashua diamond pattern foil-skrim-kraft insulation seaming tape. Tear resistant. Tri-directional reinforcing scrim. Adhesive is protected by a bleached Kraft release liner. Matches tri-directional FSK facings. High strength reinforced facestock.

Part No.	Description
FSK-2	Nashua FSK Series - 48mmx46m
FSK-3	Nashua FSK Series - 72mmx46m

### Nashua 322 HVAC Multi-Purpose Foil Tape

Seam, seal, and patch HVAC duct systems, dryer vents, insulation materials, and more with Nashua 322 HVAC Multi-Purpose Foil Tape. Made of durable aluminum foil, this high-tack tape adheres to surfaces to form an immediate seal and easily

Part No.	Description
322-2	Nashua 322 Series - Foil - 48mmx46m
322-3	Nashua 322 Series - Foil - 72mmx46mm

### Polyken Insulating tape

Polyken insulating tape comes in a 3/4 in width, 66 ft length, uses a rubber adhesive and is packaged 75 rolls per case.

Can be used in the following temperature range: +40 F to +180 F. Provides a tensile strength of 20 lb/in. Many tape products can have either conductive or insulating properties which are used across a variety of applications. This insulating tape is electrically insulating. This product is a single-sided adhesive insulating tape.

7mm thickness

Part No.	Description
B17-Black (776B)	B17 Series - Black - 3/4"x66'
B17-Blue (776BL)	B17 Series - Blue - 3/4"x66'
B17-Green (776G)	B17 Series - Green - 3/4"x66'
B17-Orange (776O)	B17 Series - Orange - 3/4"x66'
B17-Red (776R)	B17 Series - Red - 3/4"x66'
B17-Yellow (776Y)	B17 Series - Yellow - 3/4"x66'
B17-White (776W)	B17 Series - White - 3/4"x66'

## Dryerbox

Dryerbox provides many benefits to the builder, contractor and homeowner.

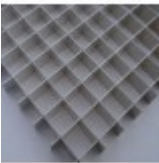

The Dryerbox prevents inefficient venting of dryer appliance due to kinks or bends in flex transition hose. Allows the appliance to be located closer to the wall

Dryerbox has models allowing for upward or downward venting with versions supporting new-construction (studs with no drywall yet) and Retro-Fit versions (drywall on the studs).

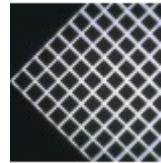

Part No.	Description
DB-350	Dryerbox model 350 upbox 3 1/2" deep
DB-3D	Dryerbox model 3D downbox 3 1/2" deep
DB-425	Dryerbox model 425 upbox 4 1/4" deep
DB-480	Dryerbox model 480 up and down box 4 1/4" deep for pedestal or stand-alone dryers
DB-4D	Dryerbox model 4D downbox 4 1/4" deep

## Eggcrate Grilles

1/2" cube aluminum eggcrate louvers are accepted as the worldwide standard. Features half-lap perimeter detailing to facilitate an unbroken appearance when parts are butt joined.

1" thick eggcrate with 1/2" square cells

1/2" cube plastic eggcrate louvers are accepted as the worldwide standard.

Features half-lap perimeter detailing to facilitate an unbroken appearance when parts are butt joined.

3/8" thick eggcrate with 1/2" square cells  
White Acrylic or Styrene

Part No.	Description
AL500-24-BWE	Aluminum Egg Crate - 23.75x47.75 baked white enamel
AL500-24-MF	Aluminium Egg Crate - 23.75x47.75 Mill Finish

Part No.	Description
ECS-24-3-White	Plastic Thincell Egg Crate - 3/8" 2x4 - White

## Exhaust Fan Vapor Barrier

A cost-effective solution to achieve moisture control and damp proofing around wall and ceiling mounted exhaust fans. Customers also use vapour barrier as an insect barrier.

Part No.	Description
PBRC1	Small/medium exhaust fan vapor barrier
PBRC3	Large exhaust fan vapor barrier

## Con-Cur Dryer Boost Fan Control \*Available through our Toronto Warehouse

The same control used in condo/apartment construction, this unit senses as soon as your clothes dryer draws more than 1 amp of current. It automatically turns on the booster fan, eliminating additional sensors, switches or speed controls. When current drops below the pre-set 2-amp threshold, the Con-Cur Dryer Booster Fan Control automatically shuts off the booster fan
